

Position: Boomi Integration Developer

We are looking to hire a Dell Boomi Integration Developer to join a global team building out a world class FinTech platform. If you're hard-working, dedicated, and want to be part of a major disrupter in Healthcare and FinTech industries, please read further. You must be experienced with cloud based architecture and comfortable working in a cross-functional team consisting of Architects, Software Development Engineers, QA Engineers, Designers and BI Developers/Testers.

Responsibilities

- Solving bottlenecks - Working within an Agile/Scrum team environment
- Working with cross functional teams - Writing clean, scalable, and testable integrations
- Analyze, design, develop, test, deploy, support and fine tune Boomi Integrations.
- Work with cross functional teams including: Business Analysis, Architects, Infrastructure, BI, Software Developers, and QA Engineers to ensure development activities are aligned with scope, schedule, priority, and business objectives.
- Follow established best practices and procedures in development and integration of applications.
- Evaluate and review implementation methodologies to achieve functional and non-functional requirements.

Qualifications

- B.S. Degree in Computer Science/Engineering, or equivalent education and experience
- Certified Boomi Developer a minimum with both Developer and Architecture certifications preferred
- 3 or more years of experience in Boomi Development
- Strong hands-on experience in Boomi Process building & deployment, Boomi EDI Integration, Boomi MDM, API management, alert framework/exception handling, connectors/listeners, and integration packs usage
- Understanding of API based integrations and Knowledge of Rest, SOAP, JSON, Web Services Interoperability
- Boomi Flow experience preferred
- General knowledge of Java, React or high level object oriented languages and similar front-end frameworks.
- Excellent communication skills

Great Compensation + Stock Options, Full Benefits (Medical, Dental, Vision), PTO, Life Insurance, 401k, relocation assistance if needed.

Legal authorization to work in the U.S. is required.
